**GitHub:** [/Brenotardelli](#)

### KNOWLEDGE

I use tools like Figma to design and prototype user interfaces, and I bring them to life with clean, maintainable code using **HTML**, **CSS**, and **JavaScript** frameworks like **React**. I often adopt a mobile-first approach, ensuring that websites and applications perform flawlessly on any screen size.

### SKILLS

React Javascript Typescript Next.js Tailwind SASS Bootstrap Figma GitHub Git

### LANGUAGES

English C1 | Portuguese C2 | Spanish B2

### WORK EXPERIENCE

**Project SurfNest** [/Link to the project](#)

2025

- SurfNest is a modern and responsive platform designed for surf enthusiasts. Built with a clean and intuitive UI, the website provides a seamless booking experience while capturing the essence of the surfing lifestyle.
- Tools: HTML, CSS, JavaScript, Figma.

**Project CurrenTcy** [/Link to the project](#)

2024-2025

- CurrenTcy is a web application that provides users with real-time foreign exchange rates and currency conversion tools. It offers an intuitive interface for tracking currency values and performing quick conversions between different currencies.
- Tools: React, TypeScript, CSS.
